COUPLE CHECKUP GROUP SUMMARY

OVER 35 YEARS OF
SOLID RESEARCH MEANS
COUPLES ARE RECEIVING
VALID RESULTS THAT WILL
MAKE THEM SCREAM,
"THIS IS US!"

Congratulations! You have taken the first step to transforming the lives of couples. Group settings enable you to build community among couples and enhance learning, while still providing customized counseling to each couple. This group summary will give you the tools to identify the strengths and issues your group is facing. We have also provided a discussion guide for your couples to keep the conversation flowing. Thank you for your dedication to building stronger relationships.

Confidentiality Notice:

Group leaders do not have access to the results of any one couple. Couples take the assessment online and receive their confidential couple report themselves. It is up to the couple to choose whether or not they want to share their individual results with anyone else. The Couple Checkup is intended to be a private and confidential process.

Once a minimum of 5 couples in a group have taken the Couple Checkup, a group summary can be generated. This allows group leaders to get an overview of the couples with whom they are working, while protecting the privacy of individual couples.

COUPLE MAP

The **Couple Map** summarizes how couples see their relationship in terms of Couple Closeness and Couple Flexibility - each has five levels.

Couple Closeness describes how emotionally close a person feels to their partner. The 3 central levels of closeness are most healthy and the two extremes (Disconnected and Overly Connected) are more problematic.

Couple Flexibility describes how open the couple is to change in leadership and roles. The 3 central levels are most healthy and the two extremes (Inflexible and Overly Flexible) are problematic.

Group Summary of Couples: (See Percentages for Each Group Above)

Balanced Couples (9 central cells): **Most healthy and happy couples**. On Closeness, they range from Somewhat Connected to Very Connected. On Flexibility, they range from Somewhat Flexible to Very Flexible.

Mid-Range Couples (12 side cells): Somewhat healthy and somewhat happy couples, unbalanced on one dimension.

Unbalanced Couples (4 corner cells): **Least healthy and most unhappy couples**. On Closeness, they are either Disconnected or Very Connected. On Flexibility, they are either Inflexible or Overly Flexible.
